

Advanced SAP Solutions

Business solutions

Let Advanced Solutions offer your company the know-how of award-winning solution leadership and senior-level consultants with an average of 10 years of business and industry experience.

Today's companies need unprecedented levels of flexibility. When you invest in IT, there's always anxiety. Will your investment be compatible with various systems? What happens when your business needs change? And when your old processes just cannot keep up with your needs? You implemented SAP to remain flexible. Shouldn't you expect this same type of flexibility from your solution provider?

CLIENT VALUE

- Team approach to customer projects
- Empowered team that understands the impact of an SAP implementation on business processes
- Flexible options from spot consulting to committed full time engagements
- Deep experience which means shortened deployment timeframes to take advantage of a client's investment quickly
- Proven and consistent deployment of SAP solutions

Advanced Solutions' SAP group assists our customers in implementing comprehensive solutions that give enterprises visibility into all points along the value chain - supplier and customer allocations, inventory levels, orders, forecasts, production plans, and key performance indicators. Our solutions have strategic, tactical, and operational planning in mind, and they help our clients create a responsive, flexible enterprise. You should expect more from your solution provider and Advanced Solutions Delivers.

CORE SERVICES

SAP™ Core Business Consulting

More than ever, companies are requiring tangible returns on investment for their initiatives. Despite ROI expectations, they're not often achieved with technology projects. Through a coordinated focus on business processes, business objectives and technology ROI, expectations can be met. Advanced Solutions brings a successful track record of analyzing companies' operations and business processes, estimating technology and operational ROIs, and then delivering the recommended solution. Advanced Solutions has a successful nine year track record of optimizing R/3 installations. We understand business, how to leverage the capabilities of the software, and how to lead change to achieve targeted results.

SAP™ NetWeaver Consulting

Establishing and maintaining a SAP technical solution is a complex job. With experience supporting the full NetWeaver stack we can provide you the support and expertise for your next implementation project or supporting your existing infrastructure.

Advanced SAP™ Support desk, Spot consulting, Custom development

Advanced Solutions' SAP Support Services provides SAP clients with a value-based support alternative to the traditional full-time, onsite staff. Our U.S based support team works hand in hand with your organization to become an extension of your internal support team. From ticketing to reporting we customize our offerings to suit your needs. Our "one-stop" access eliminates the difficulty in finding a multitude of different skill-sets to address each issue.

SAP™ Advanced Sourcesm

Advanced Solutions understands the challenges faced by our customers in today's business climate. Working with a solution provider that makes obtaining resources as simple as possible is important now more than ever. Whether you need resources for a new implementation, an upgrade, ongoing support or a full-time staff position. Our staffing professionals offer unmatched experience in SAP and other leading technologies and will work with you to tailor our offerings to suit your needs.

Strategy. Consulting. Support.

Some of our innovative Solution Offerings
